

Lawn Food

Introduction

Lawn Food 22-1-3 is an Organic Based liquid blend of organic & mined materials and horticulture grade chemicals. Lawns have an ongoing need of nutrients in low quantities especially in the hot summer days and Lawn Food 22-1-3 is an effective environmentally conscious alternative. Lawn Food 22-1-3 is designed to green up your lawn and bring a fresh look in a short period of time while respecting the integrity of your soil's microbial needs. Straight chemical fertilizers not just damage the environment, they also make your grass grow faster and weaker, and hence more maintenance and support is needed. Lawn Food 22-1-3 is a naturally balanced formulation for a healthier lawn and environment. Lawn Food 22-1-3 comes equipped with a hose attachment for your ease of application. Just attach the sprayer to your gardening hose and apply the product.

Guaranteed Minimum Analysis

Total Nitrogen (N)	22%
Available Phosphoric Acid (P ₂ O ₅)	1%
Soluble Potash (K ₂ O)	3%

Application Rates

Lawn Food 22-1-3 can be used anywhere from 18-20 ml for 100 sq. ft. area. 2 litre bottle is good for one time application on 10,000-12,000 sq. ft.

Some important tips for best results;

- Presoak the ground with plain water before spraying fertilizer
- Spray during early morning or late evening
- Apply product after mowing the lawn or when the height is low.
