

# Starter Food

## Introduction

Starter Food 1-3-15 is a 100% organic blend of organic and mined materials. It's an excellent source of readily available and slow release nutrients, supplements & organic material. Starter Food 1-3-15 is ideal for use in soil and soilless mediums. It's a good source of Phosphorus and Potassium which are vital for root, flower and overall plant development. Its ideal application time is a few days before or at the time of plantation to prepare the plant for vigorous root and flower development from the very beginning. Starter Food 1-3-15 is suitable for all vegetables, fruits, trees, flower bulbs and potted plants.

## Guaranteed Minimum Analysis

Total Nitrogen (N)	1%
Available Phosphoric Acid (P <sub>2</sub> O <sub>5</sub> )	3%
Soluble Potash (K <sub>2</sub> O)	15%

## Application Rates

**Lawn:** 1 - 1.5 kg per 100 sq. ft.

**Vegetable, fruit & flower beds:** 2-2.5 kg / 100 sq. ft.

**Trees:** generally 250 -500 grams / 3'- 4' area around the stem

**Potted plants:** 1-1.5 tsp per 1-2 gallon volume

**Medium mix:** 1-1.5 kg per cubic metre or 1000 L

**General guideline:** For best results it is highly recommended that Starter Food 1-3-15 be applied at pre-plantation or during early stages and worked well in to the medium, however it can also be applied during the season. For most plants 2-3 good applications per season are generally sufficient.

## List of Ingredients

Oilseed Cake Meals, Rock phosphate, Potassium Sulphate, and Blood Meal.

## Cautions

1. Keep the product in a cool and dry place.
2. Keep the product away from children.
